Hello Bob/Anthony, please pass on my apologies for the meeting today.

I appreciated the advice from colleagues yesterday.

Focus has been on the safety of people in and around the building to fight the fire and access the building.

I got in up to the eight floor around lunchtime yesterday and could see there has been significant spalling of the concrete floors around the perimeter in particular. Exposed reinforcement.

Have been working with Arup Fire on site who were brought in by the Fire Service. I asked for the drone to be used to get close up pictures of the concrete columns externally, which are currently in good condition. Mindful of the lack of restraint that is provided by the floors as time goes on.

Happy for the above to be shared in confidence.

John
