**Subject:** Contracted structural advice to RBKC

Barbara, RBKC would like to retain structural engineering support from Arup for the following.

1. On site analysis about safety of current recovery operation.
2. Assessment of structural stability of building on an ongoing basis.
3. Input/design of temporary support for investigation etc.
4. Initial assessment recommendation in relation to likelihood of demolition.

Could I meet someone at the scene today please. I will be requesting details of the existing structure/plans.

Please forward draft contract proposal (If needed at this stage) to my colleague Jago Williams above.

The payment for the services provided is guaranteed.

Thank you

Barbara, thank you for the advice and support.  
I asked about temperatures. Not measured but estimate 600 to 1000 degrees
