Grenfell Situation Appraisal 16th June 2017

John Allen

1. Involvement of Building Control Team at scene. Building Control including the role of the Building Control Manager may form part of the enquiry. Is there a potential conflict of interest? On site I am assisting with the police and fire investigation very closely and will be meeting the HSE soon. I am content with all of our professionalism to continue to be involved. However, it may be for yourself or others to look at the wider picture. We could ask other London colleagues to lead such as Westminster.
2. Support for ongoing dangerous structures assessment- Arup fire and structural engineers- London Underground etc
3. Records of existing building to assist structural design
4. Early decision about building- demolish
5. Cause and spread of fire- Building Control records contacting previous colleagues, corporate property, architect's records- contacting Building Control
6. Current position at scene.
